DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on July 25, 2008, has been entered.
2. The Examiner has carefully considered Applicant's amendments and accompanying remarks filed July 25, 2008.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
4. Claims 1-10, 13, 15-17, and 20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Independent claims 1 and 13 are vague and indefinite because they are drawn to a composite comprising "at least one non-ceramic element selected from a group consisting of glass fiber, carbon fiber, silicone-carbide, and graphite." This limitation is considered unclear because both glass and silicone-carbide are ceramic elements and therefore, cannot be "non-ceramic." Furthermore, claim 8 is indefinite because it requires that the "rigid facing be constructed of a

material selected from the group consisting of steel, glass, aluminum, titanium, and graphite." It is unclear how the material of the rigid facing is selected from the group consisting of the materials set forth in claim 1 and also from the group consisting of the materials set forth in claim 8.

Correction/clarification is required. The remaining claims are rejected as being dependent upon a rejected base claim.
